

An Overview of Modern Global Illumination

Skye A. Antinozzi

University of Minnesota Morris

Senior Seminar Conference, Spring 2017

Light

An Overview of Modern Global Illumination

Let's talk about *light*.

What is Global Illumination?

An Overview of Modern Global Illumination

This presentation is about...

What is Global Illumination?

An Overview of Modern Global Illumination

This presentation is about... **Global Illumination**

- ▶ Computer simulated system that approximates realistic light within 3D environments

What is Global Illumination?

An Overview of Modern Global Illumination

This presentation is about... **Global Illumination**

- ▶ Computer simulated system that approximates realistic light within 3D environments
 - ▶ Used in applications like...

What is Global Illumination?

An Overview of Modern Global Illumination

This presentation is about... **Global Illumination**

- ▶ Computer simulated system that approximates realistic light within 3D environments
 - ▶ Used in applications like...
 - ▶ 3D Computer Aided Design Software (Maya Autodesk)

What is Global Illumination?

An Overview of Modern Global Illumination

This presentation is about... **Global Illumination**

- ▶ Computer simulated system that approximates realistic light within 3D environments
 - ▶ Used in applications like...
 - ▶ 3D Computer Aided Design Software (Maya Autodesk)
 - ▶ Computer Video Games (Tom Clancy's *The Division*)

What is Global Illumination?

An Overview of Modern Global Illumination

This presentation is about... **Global Illumination**

- ▶ Computer simulated system that approximates realistic light within 3D environments
 - ▶ Used in applications like...
 - ▶ 3D Computer Aided Design Software (Maya Autodesk)
 - ▶ Computer Video Games (Tom Clancy's *The Division*)
 - ▶ Animated Film Production (Pixar's *Monsters University*)

What is Global Illumination?

An Overview of Modern Global Illumination

This presentation is about... **Global Illumination**

- ▶ Computer simulated system that approximates realistic light within 3D environments
 - ▶ Used in applications like...
 - ▶ 3D Computer Aided Design Software (Maya Autodesk)
 - ▶ Computer Video Games (Tom Clancy's *The Division*)
 - ▶ Animated Film Production (Pixar's *Monsters University*)

Let's look at some examples...

Examples of Global Illumination

An Overview of Modern Global Illumination

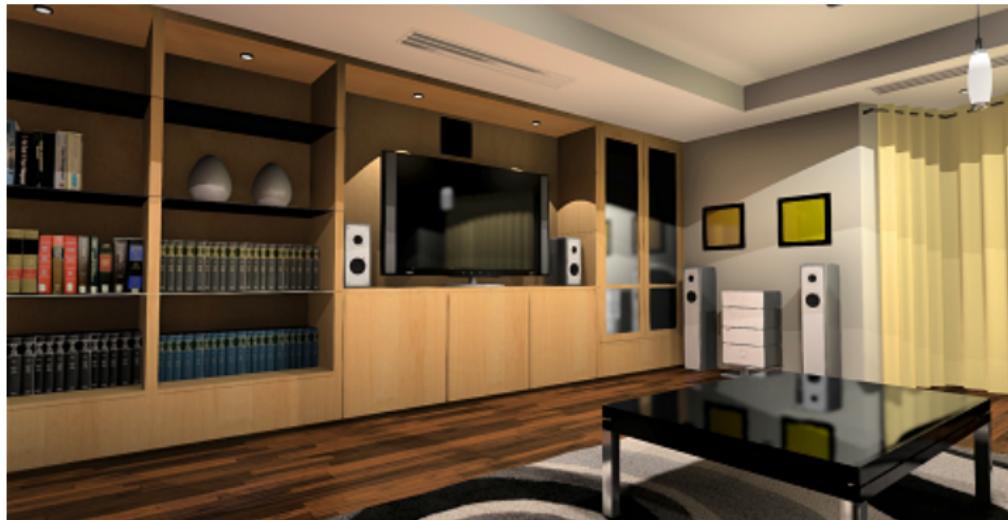

Figure: Simple scene with computer generated lighting [2]

Examples of Global Illumination

An Overview of Modern Global Illumination

Figure: Brilliantly lit in-game scene from *Tom Clancy's The Division* [4]

Examples of Global Illumination

An Overview of Modern Global Illumination

Figure: Realistic scene from Pixar's *Blue Umbrella* [3]

The Power of Light Field Probes

An Overview of Modern Global Illumination

What are **light field probes**?

The Power of Light Field Probes

An Overview of Modern Global Illumination

What are **light field probes**?

- ▶ Spheres of emitting light that are suspended in 3D space

Figure: Similar to a nightlight globe [7]

The Power of Light Field Probes

An Overview of Modern Global Illumination

What are **light field probes**?

- ▶ Spheres of emitting light that are suspended in 3D space
- ▶ Distribution of probes affect scene *radiance*

Figure: Similar to a nightlight globe [7]

The Power of Light Field Probes

An Overview of Modern Global Illumination

What are **light field probes**?

- ▶ Spheres of emitting light that are suspended in 3D space
- ▶ Distribution of probes affect scene *radiance*

Let's see what they look like...

Figure: Similar to a nightlight globe [7]

Examples of Light Field Probes

An Overview of Modern Global Illumination

Figure: Suspended probes in a scene from Tom Clancy's *The Division* [4]

Examples of Light Field Probes

An Overview of Modern Global Illumination

It's also important to note...

Examples of Light Field Probes

An Overview of Modern Global Illumination

It's also important to note...

- ▶ Light field probes aren't true spheres

Examples of Light Field Probes

An Overview of Modern Global Illumination

It's also important to note...

- ▶ Light field probes aren't true spheres
 - ▶ They're approximations

Examples of Light Field Probes

An Overview of Modern Global Illumination

It's also important to note...

- ▶ Light field probes aren't true spheres
- ▶ They're approximations

Figure: Light field probes are approximations of spheres [4]

Why use light field probes?

An Overview of Modern Global Illumination

Why are they useful?

Why use light field probes?

An Overview of Modern Global Illumination

Why are they useful?

- ▶ Provide robust and flexible scene lighting

Why use light field probes?

An Overview of Modern Global Illumination

Why are they useful?

- ▶ Provide robust and flexible scene lighting
 - ▶ Can be placed manually in required locations or,

Why use light field probes?

An Overview of Modern Global Illumination

Why are they useful?

- ▶ Provide robust and flexible scene lighting
 - ▶ Can be placed manually in required locations or,
 - ▶ Can be **automatically** placed within scene's 3D grid
 - ▶ 3D grid can be iterated over for probe placement

Why use light field probes?

An Overview of Modern Global Illumination

Why are they useful?

- ▶ Provide robust and flexible scene lighting
 - ▶ Can be placed manually in required locations or,
 - ▶ Can be **automatically** placed within scene's 3D grid
 - ▶ 3D grid can be iterated over for probe placement

Figure: Top view of probes suspended within a 3D grid [2]

Why Use Light Field Probes?

An Overview of Modern Global Illumination

- ▶ Provide realistic lighting by simulating...

Why Use Light Field Probes?

An Overview of Modern Global Illumination

- ▶ Provide realistic lighting by simulating...
 - ▶ **Soft shadows** that fade between light to dark

Why Use Light Field Probes?

An Overview of Modern Global Illumination

- ▶ Provide realistic lighting by simulating...
 - ▶ **Soft shadows** that fade between light to dark
 - ▶ **Reflections** that mirror other scene geometry

Why Use Light Field Probes?

An Overview of Modern Global Illumination

- ▶ Provide realistic lighting by simulating...
 - ▶ **Soft shadows** that fade between light to dark
 - ▶ **Reflections** that mirror other scene geometry
 - ▶ **Refractions** from light passing through scene geometry

Why Use Light Field Probes?

An Overview of Modern Global Illumination

- ▶ Provide realistic lighting by simulating...
 - ▶ **Soft shadows** that fade between light to dark
 - ▶ **Reflections** that mirror other scene geometry
 - ▶ **Refractions** from light passing through scene geometry

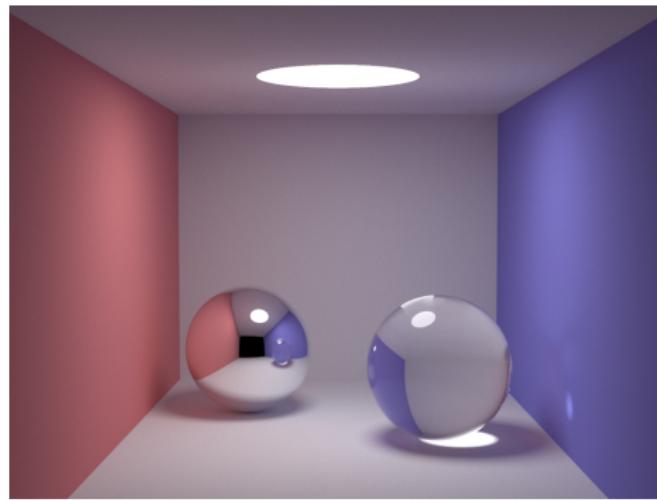

Figure: Scene with 3 properties of realistic light [8]

Why Use Light Field Probes?

An Overview of Modern Global Illumination

An important contribution of light field probes...

Why Use Light Field Probes?

An Overview of Modern Global Illumination

An important contribution of light field probes...

- ▶ Geometry outside of the viewport are viewable from reflections

Why Use Light Field Probes?

An Overview of Modern Global Illumination

An important contribution of light field probes...

- ▶ Geometry outside of the viewport are viewable from reflections

Figure: TV and cabinets reflect geometry outside of viewport [2]

How to Create Light Field Probes?

An Overview of Modern Global Illumination

- ▶ To create a single light field probe...

How to Create Light Field Probes?

An Overview of Modern Global Illumination

- ▶ To create a single light field probe...
 1. Get an image of surrounding geometry

How to Create Light Field Probes?

An Overview of Modern Global Illumination

- ▶ To create a single light field probe...
 1. Get an image of surrounding geometry

Let's see an example...

Surrounding Geometry Images

An Overview of Modern Global Illumination

Figure: The famous *Sponza* scene [9]

Surrounding Geometry Images

An Overview of Modern Global Illumination

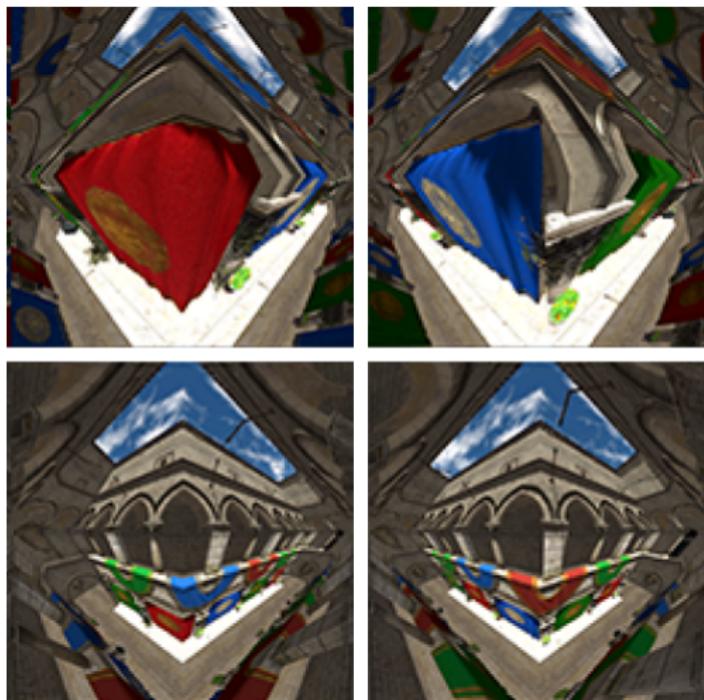

Figure: Enlarged surrounding geometry images [2]

Surrounding Geometry Images

An Overview of Modern Global Illumination

How to Create Light Field Probes?

An Overview of Modern Global Illumination

To create a single light field probe we need...

1. An image of surrounding geometry

How to Create Light Field Probes?

An Overview of Modern Global Illumination

To create a single light field probe we need...

1. An image of surrounding geometry
2. Surrounding geometry data

How to Create Light Field Probes?

An Overview of Modern Global Illumination

To create a single light field probe we need...

1. An image of surrounding geometry
2. Surrounding geometry data
 - ▶ Surface Normals & Radial Distances

How to Create Light Field Probes?

An Overview of Modern Global Illumination

To create a single light field probe we need...

1. An image of surrounding geometry
2. Surrounding geometry data
 - ▶ Surface Normals & Radial Distances
 - ▶ Angle of incident light

How to Create Light Field Probes?

An Overview of Modern Global Illumination

To create a single light field probe we need...

1. An image of surrounding geometry
2. Surrounding geometry data
 - ▶ Surface Normals & Radial Distances
 - ▶ Angle of incident light
 - ▶ Surface Material Types

How to Create Light Field Probes?

An Overview of Modern Global Illumination

To create a single light field probe we need...

1. An image of surrounding geometry
2. Surrounding geometry data
 - ▶ Surface Normals & Radial Distances
 - ▶ Angle of incident light
 - ▶ Surface Material Types
 - ▶ Interaction of incident light

How do we use this data...?

Using Surrounding Geometry Images

An Overview of Modern Global Illumination

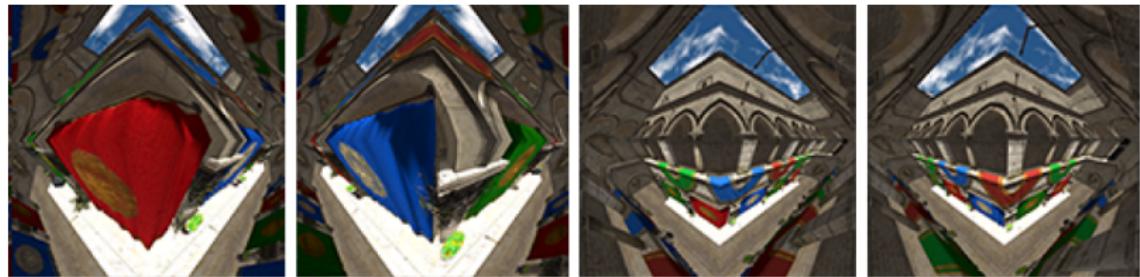

Figure: Enlarged surrounding geometry images from *Sponza* scene [2]

Using Surrounding Geometry Images

An Overview of Modern Global Illumination

Use images of surrounding geometry to...

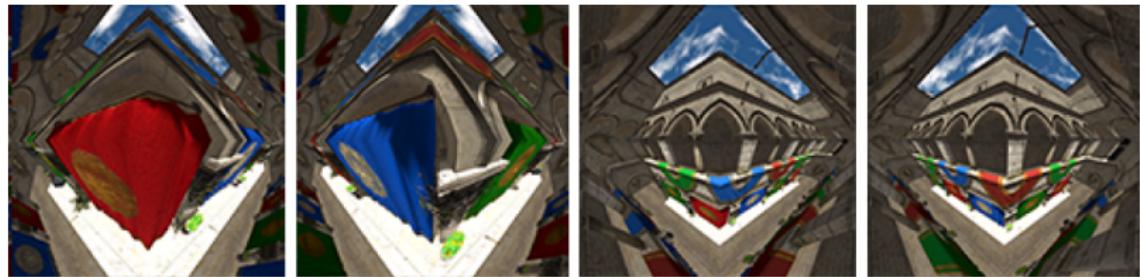

Figure: Enlarged surrounding geometry images from *Sponza* scene [2]

Using Surrounding Geometry Images

An Overview of Modern Global Illumination

Use images of surrounding geometry to...

- ▶ Determine visible geometry

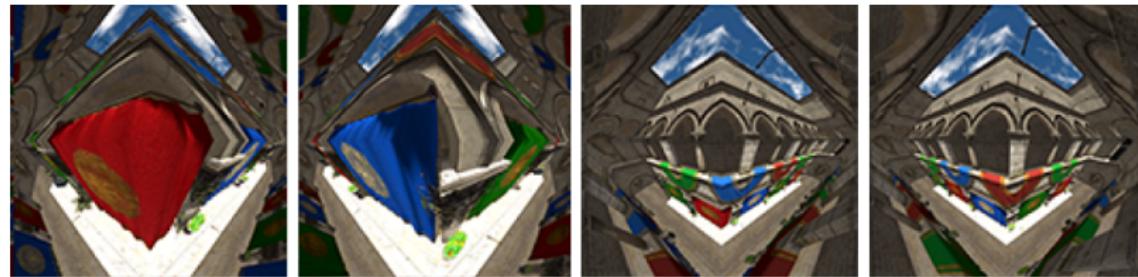

Figure: Enlarged surrounding geometry images from *Sponza* scene [2]

Using Surrounding Geometry Images

An Overview of Modern Global Illumination

Use images of surrounding geometry to...

- ▶ Determine visible geometry
- ▶ Apply basic lighting to geometry

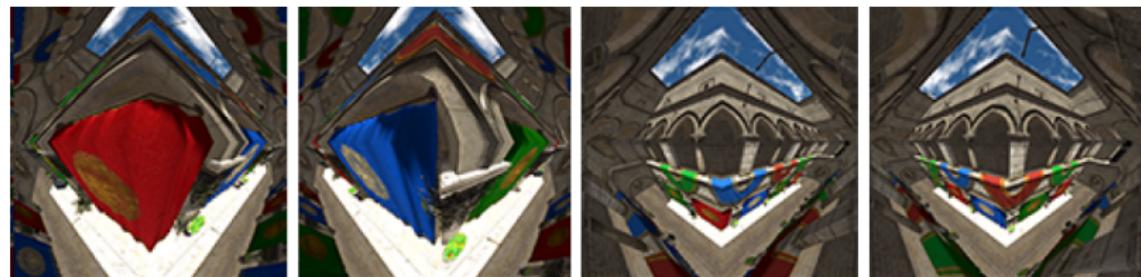

Figure: Enlarged surrounding geometry images from *Sponza* scene [2]

Using Surrounding Geometry Images

An Overview of Modern Global Illumination

Use images of surrounding geometry to...

- ▶ Determine visible geometry
- ▶ Apply basic lighting to geometry

How do we use these images?

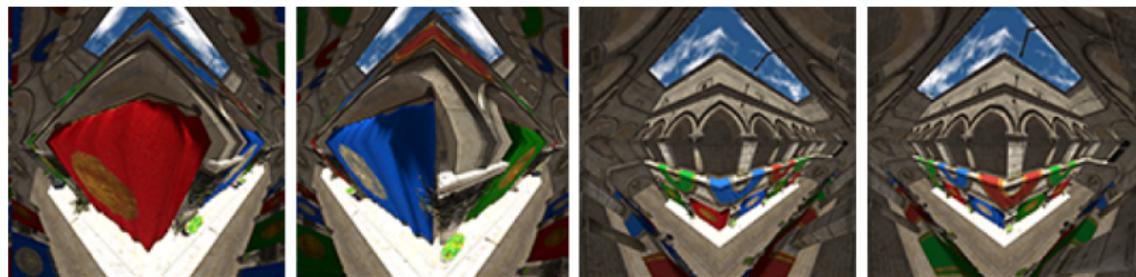

Figure: Enlarged surrounding geometry images from *Sponza* scene [2]

Ray Tracing

An Overview of Modern Global Illumination

Ray Tracing creates images by...

Ray Tracing

An Overview of Modern Global Illumination

Ray Tracing creates images by...

- ▶ Casting rays of light through viewport into the scene

Ray Tracing

An Overview of Modern Global Illumination

Ray Tracing creates images by...

- ▶ Casting rays of light through viewport into the scene

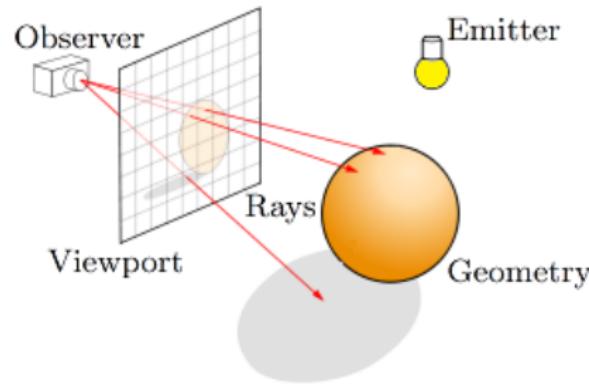

Figure: Visualization of Ray Tracing [5]

Ray Tracing

An Overview of Modern Global Illumination

Ray Tracing creates images by...

- ▶ Casting rays of light through viewport into the scene
- ▶ Intersected geometry and their properties are saved

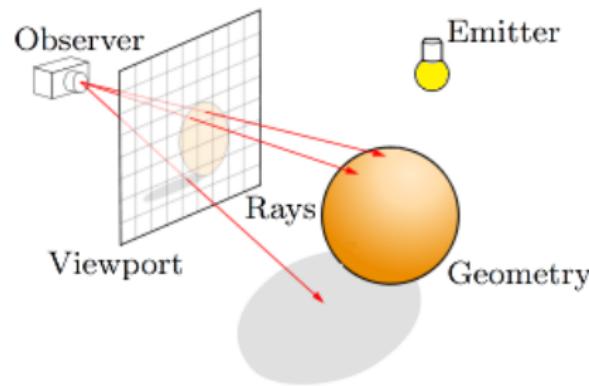

Figure: Visualization of Ray Tracing [5]

Ray Tracing

An Overview of Modern Global Illumination

Ray Tracing creates images by...

- ▶ Casting rays of light through viewport into the scene
- ▶ Intersected geometry and their properties are saved

What would a ray tracing probe look like?

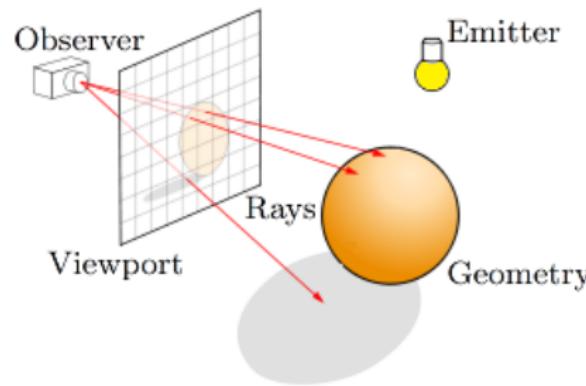

Figure: Visualization of Ray Tracing [5]

Examples of Light Field Probes

An Overview of Modern Global Illumination

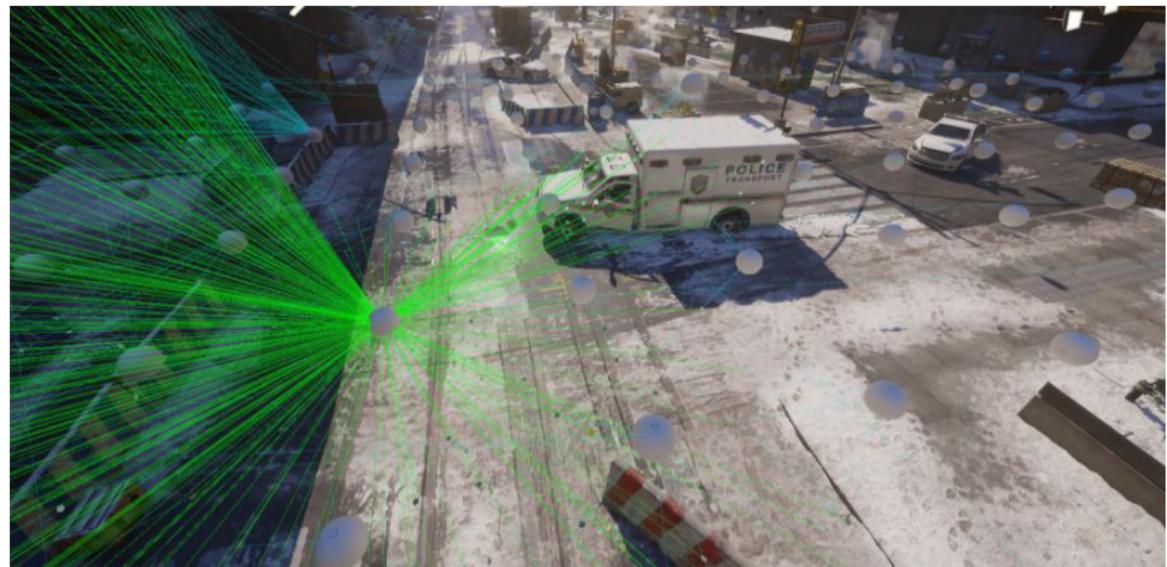

Figure: Green lines visualize probe ray trace of surrounding geometry [4]

Ray Tracing Surrounding Geometry

An Overview of Modern Global Illumination

Probes are sphere-like... is ray tracing over them possible?

Ray Tracing Surrounding Geometry

An Overview of Modern Global Illumination

Probes are sphere-like... is ray tracing over them possible?

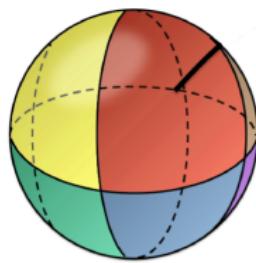

Figure: Sphere to Octahedron to Square [10]

Ray Tracing Surrounding Geometry

An Overview of Modern Global Illumination

Probes are sphere-like... is ray tracing over them possible?

- ▶ Perform a sphere to octahedron mapping

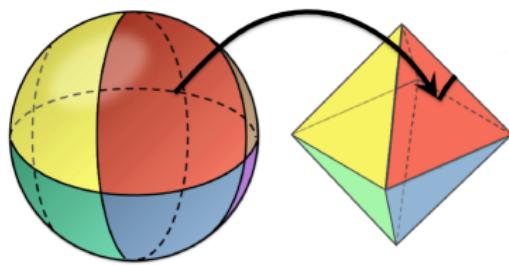

Figure: Sphere to Octahedron to Square [10]

Ray Tracing Surrounding Geometry

An Overview of Modern Global Illumination

Probes are sphere-like... is ray tracing over them possible?

- ▶ Perform a sphere to octahedron mapping
- ▶ Project octahedron to 2D plane

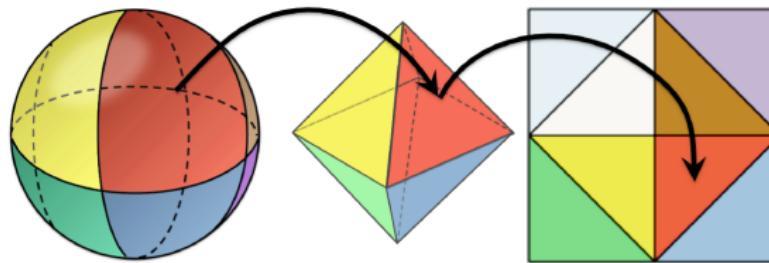

Figure: Sphere to Octahedron to Square [10]

Ray Tracing Surrounding Geometry

An Overview of Modern Global Illumination

Probes are sphere-like... is ray tracing over them possible?

- ▶ Perform a sphere to octahedron mapping
- ▶ Project octahedron to 2D plane
- ▶ Unfold projection into unit square

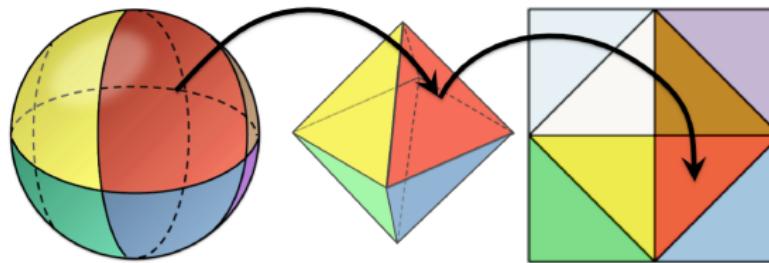

Figure: Sphere to Octahedron to Square [10]

Ray Tracing Surrounding Geometry

An Overview of Modern Global Illumination

And the result...?

Ray Tracing Surrounding Geometry

An Overview of Modern Global Illumination

And the result...?

- ▶ A square image that can be ray traced over

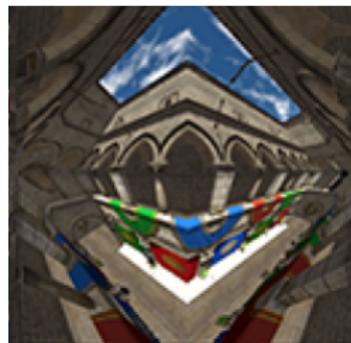

Figure: Ray Traceable Square Image [2]

Ray Tracing Surrounding Geometry

An Overview of Modern Global Illumination

And the result...?

- ▶ A square image that can be ray traced over
- ▶ Now we can...

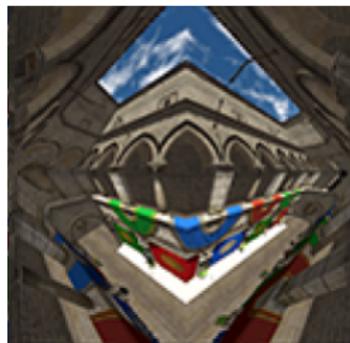

Figure: Ray Traceable Square Image [2]

Ray Tracing Surrounding Geometry

An Overview of Modern Global Illumination

And the result...?

- ▶ A square image that can be ray traced over
- ▶ Now we can...
 - ▶ Determine visible surrounding geometry

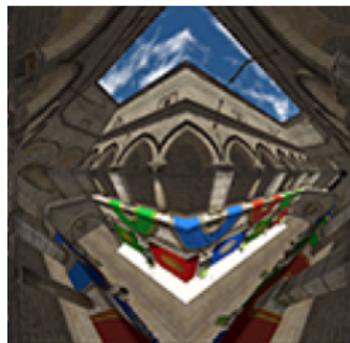

Figure: Ray Traceable Square Image [2]

Ray Tracing Surrounding Geometry

An Overview of Modern Global Illumination

And the result...?

- ▶ A square image that can be ray traced over
- ▶ Now we can...
 - ▶ Determine visible surrounding geometry
 - ▶ Apply basic lighting to surrounding geometry
